MDIA Announces Medical Provider Network Diagnostic Services

WOODLAND HILLS, Calif.--(BUSINESS WIRE)--Jan. 7, 2005--Medical Diagnostic Associates, A Medical Corporation (MDIA), a California Statewide Medical Practice offering a Network of Diagnostic Imaging & Electrodiagnostic services, announced today the availability of a wide range of diagnostic services for the newly created Medical Provider Networks (MPNs) formed by recent California Workers' Compensation legislation.

"MDIA continues to meet the needs of the general and workers' compensation medical communities in providing high quality diagnostic imaging and electrodiagnostic services throughout California," said Ronald J. Friedman, M.D., MDIA president and chief executive officer.

"MDIA's physicians, with extensive Workers' Compensation experience and fellowship training in advanced diagnostic modalities, will be a leading provider in MPN Diagnostic services," added Friedman.

Gail M. Schlesinger, M.D., MDIA executive vice president, stated, "MDIA physicians review all requests for diagnostic studies to assure the proper examination is performed utilizing the most appropriate equipment to provide the best diagnostic study."

MDIA welcomes visits to its website and phone or email inquires.
